Dear Gay,

Many thanks for coming into Wyvern last week with the Explore Marriage Conference. The Year 10 students enjoyed the sessions and thought that they were definitely worth while. The students said that the sessions were interesting and reinforced the message that they had been taught in class. The students benefited from talking through issues to do with long term relationships and the place that marriage has in today's society. Many students said they hoped to get married in the future and they value the comments from couples that had been married for many years

We are very much looking forward to the next session with the other half of Year 10 in May next year.

Yours sincerely

Catherine Hensby
Individual Development Coordinator
